ONEIRIC (related to dreams)

Could it be that we are upside down, confused? Thus, by waking up in the morning to what we believe is reality, we actually fall into a state of unconsciousness that prevents us from knowing who we are, what we want, and lets our ego take control of our lives. Instead, when we sleep we actually awaken into a higher reality, a state of high consciousness, and we open ourselves to what our souls want to tell us through a dream...

A DREAM a series of thoughts, images, and sensations occurring in a person's mind during sleep..

"When you dream something you have an experience that resembles in many ways a waking experience. You hear things, you see things, you have emotions, and the experience is real, its imaginary of course, but the experience is real."

In this Series ONEIRIC , I've been working (since 2016) with the concept of *dreams* , and the difference between reality and fantasy. Maybe what we consider a reality , is another big dream.

I create complex and moving atmospheres, environments in which you can enter, travel and discover new things that happen incessantly, like dreams. Through metaphors and analogies, this works are real vehicles that transport a world full of spiritual senses and imagination.
